

ЕГЭ – 2027 · РАЗДЕЛ «ЧТЕНИЕ»

Задания 12–18

Reading for detail: как выбрать один ответ из четырёх и доказать его
текстом

12–18

РЕКОМЕНДУЕМОЕ ВРЕМЯ ВЫПОЛНЕНИЯ – 30 МИНУТ

Раздел «Чтение»

12 баллов

Задание	Проверяемые умения	Тип задания	Тип текста	Макс. балл
10 Б (базовый)	Понимание основного содержания прочитанного текста. Reading for gist	На установление соответствия	Небольшие тексты информационного и научно-популярного характера	3
11 Б (базовый)	Понимание структурно-смысловых связей в тексте. Reading for specific information / scanning	На установление соответствия	Публицистические и научно-популярные тексты	2
12–18 В (высокий)	Полное и точное понимание текста, умение делать выводы. Reading for detail	Выбор ответа из четырёх	Художественные или публицистические тексты	7

Типичные ошибки

Несформированность различных стратегий чтения и неумение применять их в зависимости от коммуникативной задачи;

неумение определять основную мысль текста на основе ключевых слов и фраз;

игнорирование смысловых различий в силу слабых языковых знаний, ограниченного словарного запаса и непонимания синтаксических конструкций;

опора на отдельные слова, а не на смысл прочитанного текста;

неумение отделять главное от второстепенных деталей;

неумение применять языковую и контекстуальную догадки для понимания незнакомых слов в контексте.

Незнакомые слова — не повод паниковать

- Учимся понимать общий смысл текста, используем языковую догадку.
- Самые сложные слова (уровень B2+ и выше) обычно не влияют на понимание и не нужны для ответа на вопросы.
- Догадывайтесь о значении важных слов: определите часть речи, обратите внимание на суффиксы и префиксы.

While recycling and refillable water bottles were once the most popular fad among the environmentally conscious, there is now a more pressing matter for humans to turn their attention to in order to slow global climate change: the animal industry.

12) What should people consider to cut in relation to the climate change, according to the author?

1. Use of refillable bottles. 2. Meat production. 3. Level of environmental consciousness. 4. Development of eco-industry.

Ищем синонимы, а не совпадения

- Не тратьте много времени на трудные вопросы — лучше вернуться к ним позже.
- Читая текст и вопросы, всегда подчёркивайте ключевые слова и выражения.
- Исходный текст в вопросах всегда перефразируется: ищите не точное совпадение слов, а синонимы и перифразы.

To the naked eye, this farm is just like any other. But it doesn't take long to realise that the farm of Jesus Martin, though not huge, is anything but ordinary.

1) The author introduces the farm where Jesus Martin grew up as ...

1. a quite **typical** one. 2. a rather **special** one. 3. an extremely **small** one. 4. a very **profitable** one.

Этап 1. Прочитать текст

- текст публицистический или художественный;
- если есть заголовок — его нужно обязательно прочитать и подумать о его смысле;
- уловить развитие сюжета или мысли автора: про кого, какие места, какие события идёт речь;
- не пугаться незнакомых слов и длинных сложных предложений;
- подчеркнуть средства логической связи (however, although, firstly, secondly...) — они передают причинно-следственные связи.

How a Paris abbey became a science museum

1 A trip to Europe without visiting museums would be like a trip to Fiji without visiting a beach. It just seems wrong to ignore such an embarrassment of riches. So when I was in France last year, I dutifully walked through museums, but I soon noticed a strange phenomenon. Every time I think about going to a museum, it seems like a fascinating way to spend an afternoon, but once I get there, I almost always find myself getting very sleepy by the time I get to the second gallery. I try to be enthusiastic ... but usually I'm no match for the long halls of display cases.

2 There is an exception to this rule, though: science museums. I love inventions and gadgets, getting to know how things work and how people went about solving very difficult problems. I can stay awake in a good science museum indefinitely. So while in Paris, I visited the Conservatory of Arts and Trades. Part of this centuries-old institution is a museum that's open to the public, and it contains a fascinating variety of objects and exhibits including the original Foucault's Pendulum.

3 The Conservatory is off the beaten path; most English guidebooks don't even mention it. It does, however, attract a certain number of pilgrims who were fascinated by Umberto Eco's novel Foucault's Pendulum, part of which takes place there. In the novel, a secret passage under the floor of the nave connects with the Paris sewers. That isn't the case in reality, but truth is perhaps more interesting than fiction. There is something under the floor of the nave, a curious part of the building's long and strange history.

How a Paris abbey became a science museum

4 The foundation for the abbey church of St. Martin of the Fields was laid around 1059, about the time of the Norman conquest. Over the next centuries, numerous additions and renovations were undertaken. All that changed in the French Revolution when under the name of Conservatory of Arts and Trades, it became a depository for machines, models, tools, drawings, descriptions and books in all the areas of the arts and trades. It officially opened in 1802.

5 The museum closed for a renovation in 1993, and as part of the process, archaeological excavations were undertaken beneath the floor of the nave. For the entire history of the church, there had been stories that the site on which it stood was once a Merovingian funerary basilica, but this had never been proven. What archaeologists discovered was a large necropolis dating from the 6th or 7th century with about 100 plaster coffins inside. The tales were indeed true.

6 When the museum reopened a few years later, it was a typical shiny and up-to-date science museum. But it was decided that their thousands of additional articles should be made available to scholars even when they're not on exhibit. So they opened a satellite facility in the nearby town of Saint-Denis, where by appointment only qualified researchers can go to examine the rest of the museum's collection.

7 I've been to the Conservatory in 2000 and in 2003. As a science museum I found it a sheer delight. The former abbey is only a portion of the museum, and the museum is only a portion of the Conservatory. But all the history of the building and the institution seems to be concentrated in the large nave with its bones beneath and gadgets above. The odd contrast of centuries of monastic simplicity with centuries of technological progress tickles me in a way I can't easily describe. Perhaps the Pendulum says it best: as a scientific wonder that's also meditatively simple, it symbolically bridges the illusory divide between technology and spirituality.

Этап 2. Работа с вопросами

Порядок

тестовые вопросы обычно идут в том же порядке, что и информация в тексте

Общие вопросы

в конце могут быть вопросы более общего характера: роль заголовка, смысл всего текста, отношение автора

Два типа

вопросы к деталям и вопросы на общее понимание смысла и намерений

Детали или скрытый смысл

Вопросы на понимание деталей

- обычно идут по порядку
- относятся к конкретному отрезку текста
- нужно уловить конкретные детали + смысл

Вопросы на понимание имплицитно выраженной информации

- могут быть связаны не с конкретным отрезком, а с текстом в целом
- нужно понять общий смысл, идеи, намерения, отношение

Смысл выделенного местоимения или слова

Over the last decade, the number of people taking online courses and using technology as a tool to enhance their education has increased dramatically. You can now master a foreign language or complete a whole degree without leaving the comfort of your sofa. ... Meanwhile, the range of technology used inside the classroom has also boomed, with the rise of smartboards, digital textbooks and, most notably, the tools offered on the Internet. But what does this mean for teachers?

... Computers do not teach children to question, to discriminate among sources of information, to weigh perspectives.

This in Paragraph 1 refers to ...

1) the continuing growth in education technology. 2) the opportunity to take university courses online. 3) more people turning to online education. 4) the freedom technology gives to people.

Discriminate in Paragraph 3 most probably means ...

1) favour. 2) distinguish. 3) judge. 4) characterise.

Конкретная информация другими словами

No matter how much effort you put into picking an occupation, there are days when it will feel like work. However, there will be others when you will think, 'I would do this even if I weren't getting paid.' The trick is to choose a career that has many more great days than ones that aren't so great.

My decision to continue studying Chinese in Taiwan was mostly a coincidence. ... When I actually received the scholarship, I had to go. You don't turn down an offer of studying a language for one year with most costs covered.

In the author's opinion, an ideal occupation is the one that ...

1) makes you enjoy every moment of your working life. 2) brings you satisfaction most of the time. 3) does not require you to work hard. 4) provides you with a big monetary reward.

The author decided to accept the scholarship mainly because ...

1) it had always been his dream to visit Taiwan. 2) his teacher insisted on it. 3) he wanted to continue studying Chinese. 4) he did not have to pay for anything.

FALSE — NOT — TRUE

... The most prominent drawback is its inability to interact with humans. ... Computers do not teach children to question, to discriminate among sources of information, to weigh perspectives. ... Without a great teacher, technology merely becomes an automated tool and stops inspiring and engaging students.

... Technology doesn't discriminate based on a student's ability or skill. It provides an opportunity to engage students using a medium that they recognise. Technology is growing not just within our classrooms but also in our everyday lives, so it is natural that we should increasingly incorporate it into classrooms.

Which advantage of human teachers over technology is **NOT** mentioned in Paragraph 3?

1) Development of critical thinking skills. 2) Awareness of students' personal characteristics. 3) Student involvement and motivation. 4) Communication and interaction.

Which statement about the use of technology is **FALSE**, according to the text?

1) Technology gives everyone equal chances. 2) It provides the environment students are used to. 3) We cannot avoid technology, so we should use it. 4) Students should use technology at home.

ВОПРОСЫ НА ПОНИМАНИЕ ИМПЛИЦИТНОЙ ИНФОРМАЦИИ

Ко всему тексту или абзацу

Ко всему тексту: вывод

The author draws the conclusion that technology ... 1) will substitute teachers in the distant future. 2) can help teachers but cannot replace them. 3) will never be as effective as human teachers. 4) cannot be trusted as human teachers are.

Ко всему тексту: цель автора

The author of the article aims to ... 1) describe his experience. 2) entertain the reader. 3) persuade us to study Chinese. 4) advise us how to learn best.

Главная мысль абзаца

What is the main idea of the last paragraph? 1) Little do we know about Agatha Christie's life. 2) Miss Marple is similar in character to her creator. 3) The famous writer had very common hobbies. 4) Agatha Christie supported her husband's work.

ЭТАП 2. РАБОТА С ВОПРОСАМИ

Сначала свой ответ, потом опции

1. Прочитайте сам вопрос (или начало предложения). Опции не читайте — закройте их ручкой или листом бумаги.

2. Подумайте, можете ли вы ответить на этот вопрос на основе прочитанного текста.

3. Откройте первую опцию — это то, о чём вы подумали? Так же откройте вторую, третью и четвёртую и выберите ближайшую к ВАШЕМУ ответу.

4. Найдите в тексте подтверждение и подчеркните предложения, слова, фразы с нужной информацией.

Удостоверьтесь, что выбранная опция **ПОЛНОСТЬЮ**, по всем словам, соответствует тому, **ЧТО** спрашивалось.

Exam task: questions 12–18

12. According to the author, visiting museums in Europe is considered to ...

1) become more and more popular. 2) be an integral part of any journey. 3) show the level of one's education. 4) be the evidence of general curiosity.

14. Which of the following does NOT explain the author's love for science museums?

1) He loves history of gadgets. 2) There is a chance to see how mechanisms work. 3) It's possible to touch the things that he likes. 4) The author likes stories of inventions.

16. The reason the archaeological excavations started was the need to ...

1) find Merovingian treasures. 2) solve some construction problems. 3) strengthen the basement. 4) prove the story of the site.

18. Visiting the museum the author is impressed by ...

1) its size, history and facilities. 2) the number of technological exhibits. 3) the mixture of material and immaterial in its environment. 4) the symbols he finds there.

13. What does the author think about museums?

1) The European museums are the best. 2) He finds most of them to be boring. 3) There should be only science museums. 4) He thinks they are a waste of money.

15. According to the author, the Conservatory is popular with the ...

1) local people. 2) fans of a famous book. 3) English guides. 4) scholars.

17. "A satellite facility" in phrase "... they opened a satellite facility" (paragraph 6) refers to ...

1) a minor educational site. 2) a research area. 3) a place for additional exhibits. 4) the museum's laboratory.

Ответы и доказательства

№	Ответ	Proof in the text
12	2	A trip to Europe without visiting museums would be like a trip to Fiji without visiting a beach
13	2	I almost always find myself getting very sleepy by the time I get to the second gallery
14	3	I love inventions and gadgets, getting to know how things work ... (touching is not mentioned)
15	2	attract a certain number of pilgrims who were fascinated by Umberto Eco’s novel
16	2	The museum closed for a renovation in 1993, and as part of the process, archaeological excavations were undertaken
17	3	their thousands of additional articles should be made available to scholars even when they’re not on exhibit
18	3	The odd contrast of centuries of monastic simplicity with centuries of technological progress tickles me
