Exam task: why people in Zetland travel abroad

Imagine that you are doing a project on **why people in Zetland travel abroad**. You have found some data on the subject – the results of a survey conducted among people in Zetland (see the table below). Comment on the survey data and give your opinion on the subject of the project.

The survey question: Why do you travel abroad? Choose one option.

Reason	Number of respondents (%)
to see famous sights	40
to get out of comfort zone	22
to practise a foreign language	17
to meet new people	12
to taste local food	9

WRITE 200–250 WORDS · PLAN

- make an opening statement on the subject of the project;
- select and report 2–3 main facts;
- make 1–2 comparisons where relevant and give your comments;
- outline a problem that can arise with travelling abroad and suggest a way of solving it;
- conclude by giving and explaining your opinion on the importance of travelling in human life.

Music schools: 38.1 по сильному шаблону

It is widely believed that music develops creativity and patience, yet music schools are not always popular. For my project on why some Zetlanders refuse to attend music schools, I have found the results of a survey conducted among people in Zetland, which I am going to analyse in this essay.

What stands out in the table is that the most common reason, given by 29% of the respondents, is the lack of fast results. Almost a quarter of those surveyed (23%) find music lessons too time-consuming, whereas 14% cannot afford a quality instrument.

Comparing the figures, it can be seen that the proportion of people who are not interested in music (19%) is slightly higher than that of those who complain about the distance to school (15%). It seems quite natural, since motivation matters more than location: a person who loves music will travel across the city to study.

Undoubtedly, certain problems may arise with learning to play a musical instrument. One of them is the high cost of a good instrument, which many families cannot afford. One of the possible solutions is to rent an instrument from the school or to buy a second-hand one, which would make lessons affordable for more families.

To sum up, I am convinced that it is not essential for everyone to play a musical instrument, as people have different talents and interests. Nevertheless, every child should be given a chance to try, because music may turn out to be their true calling.

- Вступление:** It is widely believed that... yet... + тема проекта и аудитория из задания + придаточное which.
- Факты:** 3 факта с цифрами; доли словами (almost a quarter), связка whereas.
- Сравнение:** 19% и 15% — опции, которых не было в фактах; slightly higher than that of; комментарий It seems quite natural, since...
- Проблема + решение:** Проблема — именно learning to play a musical instrument; решение снимает её (rent / second-hand); придаточные which.
- Мнение:** Ответ на вопрос плана «whether one should...» + две причины; Passive (should be given), may turn out.
- Стиль (аспект 6):** Ни одной краткой формы, вопроса к читателю или разговорного слова.

Главное в задании 38

Задание 38

1. Выберите 38.1 или 38.2 за 5 минут: где данные понятнее и где вы лучше знаете лексику для проблемы и мнения.
2. Пять абзацев по плану: введение (тема + проект) → 2–3 факта с цифрами → 1–2 сравнения с комментарием → проблема + решение → вывод + мнение с обоснованием.
3. В фактах и сравнениях — только цифры из таблицы, цифрами (40%). Сравнивайте через *whereas*, *twice as many*, *nearly the same*.
4. Нейтральный стиль без сокращений и риторических вопросов. 200–250 слов, проверка по чек-листу.
