

Шаблон 1. Базовый каркас: 5 абзацев = 5 пунктов плана (≈240 слов)

Вступление ≈ 45–55 слов	Nowadays [тема в общем виде] is becoming more and more popular. I am doing a project on [тема проекта — как в задании], and I have found some data on the subject – the results of a survey conducted among [аудитория из задания]. In this essay I am going to analyse the data and give my opinion. Аспект 1. Тему проекта и аудиторию берём из задания, но своими словами не искажаем.
Факты (2–3) ≈ 35–45 слов	According to the [table / diagram], [x]% of the respondents [что делают — опция своими словами]. About a quarter / a fifth of those surveyed ([y]% [...]), while only [z]% [...]. Аспект 2. 2–3 факта с цифрами. Опции встраиваем в предложение своими словами, точно по смыслу. Числа — цифрами.
Сравнение + комментарий ≈ 50–60 слов	It can be seen from the data that the number of the respondents who [A] is higher than the number of those who [B] ([x]% and [y]% respectively). This is not surprising because [причина именно этой разницы]. Аспект 3. Две опции с заметной разницей, которых не было в фактах, + комментарий «почему».
Проблема + решение ≈ 40–55 слов	However, a problem can arise with [тема проблемы — слово в слово из плана]. The thing is that [проблема + последствие]. A possible solution to this problem is [решение, которое снимает именно эту проблему]. Аспект 4. Проблема — ровно про то, что названо в плане; решение — к этой проблеме, а не «вообще».
Вывод + мнение ≈ 30–45 слов	In conclusion, I would like to say that, in my opinion, [ответ на вопрос из последнего пункта плана] because [объяснение]. [ещё один аргумент]. Аспект 5. Мнение отвечает именно на вопрос плана и обязательно объяснено.

Шаблон 2. Язык высокого уровня (K3 + K4)

Абзац	Сильнее	Зачем
Вступление	It is a well-known fact that... / The matter of ... is rather controversial nowadays. For my project on [...], I have found the results of a survey conducted among [...], which I would like to comment on.	Цепляющее первое предложение + придаточное which. Без вопросов к читателю.
Факты (2–3)	What stands out in the table is that two fifths of the respondents (40%)... · The second most popular option, chosen by 22%, is... · whereas only 9% of those surveyed...	Доли словами (a quarter, two fifths) + цифры; связки whereas, while.
Сравнение + комментарий	Comparing the figures, it can be seen that A is more than twice as popular as B (40% and 17% respectively). · A possible explanation for this might be that... · It seems quite natural that...	Безличные конструкции (it can be seen), respectively, осторожный комментарий (might be, it seems).
Проблема + решение	Undoubtedly, certain problems may arise with [...]. One of them is that... If [...], they are likely to [...]. · One of the possible solutions is [...], so that [...].	Условное предложение, be likely to, so that — K4 «высокий уровень».
Вывод + мнение	To sum up, I firmly believe that... · Not only does it [...], but it also [...]. · Should people [...], they would [...].	Инверсия и разнообразные формулы мнения — не «I think» в каждом абзаце.

Сильный шаблон не длиннее базового — он точнее. Каждую «умную» фразу проверяйте на ошибки: ошибка стоит баллов по K3–K4.

Образец по шаблону 1 · 242 слов

38.1 · why people in Zetland travel abroad · Why do you travel abroad? — sights 40%, comfort zone 22%, language 17%, new people 12%, local food 9% · problem: travelling abroad · opinion: importance of travelling in human life

Nowadays travelling abroad is becoming more and more popular. I am doing a project on why people in Zetland travel abroad, and I have found some data on the subject – the results of a survey conducted among people in Zetland. In this essay I am going to analyse the data and give my opinion.

According to the table, 40% of the respondents travel abroad to see famous sights. More than a fifth of those surveyed (22%) want to get out of their comfort zone, while only 9% go abroad to taste local food.

It can be seen from the data that the number of the respondents who travel to see famous sights is more than twice as high as the number of those who go abroad to practise a foreign language (40% and 17% respectively). This is not surprising because sightseeing is the main purpose of most tourist trips, while a language can also be learnt at home.

However, a problem can arise with travelling abroad. Many travellers do not speak the local language, so they find it difficult to ask for directions or order food. A possible solution to this problem is to learn some basic phrases before the trip or to use a translation app.

In conclusion, I would like to say that, in my opinion, travelling plays an important role in human life because it broadens people's horizons. Moreover, it helps them understand other cultures and become more tolerant.

Шаблон 3. Язык данных

%	Словами	Во сколько раз	А is twice / three times as popular as B · twice as many respondents chose A as B
5%	one in twenty	Разница	the difference between A (32%) and B (27%) is only 5% · the gap between A and B is quite wide
10%	one in ten	Почти поровну	A and B are chosen by almost the same proportion of respondents · A (16%) is almost as popular as B (17%)
20%	a fifth / one in five	Больше / меньше	A is slightly / far / considerably more popular than B · the figure for A is higher than that for B
25%	a quarter	Крайние значения	A is by far the most popular option · B is the least popular option
≈33%	a third	Контраст	whereas / while · by contrast · in comparison with · ... 40% and 17% respectively
40%	two fifths		
50%	half		
75%	three quarters		
29–32%	just under a third		
26–27%	just over a quarter		
45–48%	nearly / almost half		
≈	approximately, roughly, about		

Шесть ловушек фактов и сравнений

- «Во сколько раз» и «на сколько» — разные вещи: 40% и 20% — это **twice as many**, а разница между ними — **the difference is 20%**. Не смешивайте: «twice» только при $\times 2$.
- Проверяйте арифметику: twice $\approx \times 2$ (29% и 14% — almost twice), three times $\approx \times 3$.
- Числа пишем цифрами — так требует инструкция к заданию 38 в ЕГЭ.
- Опции — одним способом на всё эссе. Лучше встраивать их в предложение своими словами (40% of the respondents travel to see sights). Если пишете в кавычках — то во всех абзацах: дословно, с заглавной, со словом the option / the answer и в английских кавычках " ".
- 2–3 факта, а не вся таблица: перечисление всех строк съедает слова и не даёт дополнительных баллов.
- Для сравнения берите две опции с заметной разницей, которых не было в фактах: разницу легче объяснить, и абзацы не повторяют друг друга.

Шаблон 4. Проблема, решение, мнение

Проблема	One of the problems that can arise with [X из плана] is that... · Undoubtedly, certain problems may arise with [X]. One of them is... X — слово в слово из плана. Проблема конкретная, с последствием (As a result, ... / If ..., they will ...).
Решение	A possible solution to this problem is to... · One of the ways to overcome this difficulty is... · This could be solved by..., so that... Решение снимает именно эту проблему. Если его можно вставить в любое эссе («больше информировать людей») — аспект раскрыт неполно.
Мнение: importance of X	To sum up, I am convinced that X is essential / of great importance because... Сказать, важно ли, и объяснить.
Мнение: whether one should X	In conclusion, I believe that one should (not)... because... Чёткое да / нет + причина.
Мнение: role / reasons	All in all, from my point of view, X plays a key role in... since... Ответить на вопрос плана, не пересказывать факты.

Нейтральный стиль (аспект 6) и объём

- Без кратких форм: do not, it is, cannot.
- Без риторических вопросов, восклицаний и Let's.
- Без обращения к читателю (you): people / one / teenagers.
- Без разговорной лексики: a lot of $\rightarrow$ many / a great number of; kids $\rightarrow$ children; super $\rightarrow$ extremely.
- Без личных историй — это проект, а не письмо другу.

- 179 слов и меньше** — 0 баллов за всё задание
- 180–275** — проверяется; норма 200–250
- 276 и больше** — эксперт отсчитывает 250 слов, остальное не читает (обычно теряется вывод)
- 0 по K1 $\rightarrow$ 0 за всё задание; больше 30% текста совпадает с источником $\rightarrow$ 0
- Одно слово: 29%, 2026, twenty-one, well-known, isn't (но краткие формы в 38 — нарушение стиля)

Чек-лист перед сдачей

- ☐ 200–250 слов (проверяется 180–275; если больше 275 — эксперт читает только 250)
- ☐ Вступление: тема проекта и аудитория опроса как в задании
- ☐ 2–3 факта с цифрами (числа — цифрами)
- ☐ 1–2 арифметически верных сравнения + комментарий «почему»
- ☐ Проблема — ровно по теме плана, решение снимает именно её

- ☐ Мнение отвечает на вопрос плана и объяснено
- ☐ 5 абзацев по плану, связки между всеми частями
- ☐ Нейтральный стиль: без кратких форм, вопросов, you, разговорных слов
- ☐ Сложная грамматика без ошибок: пассив, условные, придаточные, Complex Subject

Задание

38.1 Imagine that you are doing a project on **why some Zetlanders refuse to attend music schools**. You have found some data on the subject – the results of a survey conducted among people in Zetland (see the table below). Comment on the survey data and give your opinion on the subject of the project.

The survey question: Why do you refuse to attend a music school? Choose one option. — No fast results 29%; Time-consuming 23%; Not interested in music 19%; Far from home 15%; No money for a quality instrument 14%

Write 200–250 words. Plan: opening statement; 2–3 facts; 1–2 comparisons + comments; outline a problem that can arise with learning to play a musical instrument and suggest a way of solving it; conclude by giving and explaining your opinion on whether one should be able to play a musical instrument.

Образец по шаблону 2 · 249 слов

Вступление	It is widely believed that music develops creativity and patience, yet music schools are not always popular. For my project on why some Zetlanders refuse to attend music schools, I have found the results of a survey conducted among people in Zetland, which I am going to analyse in this essay.
Факты (2–3)	What stands out in the table is that the most common reason, given by 29% of the respondents, is the lack of fast results. Nearly a fifth of those surveyed (19%) are not interested in music, whereas 15% find music schools too far from home.
Сравнение + комментарий	Comparing the figures, it can be seen that the proportion of people who consider music lessons time-consuming is considerably higher than that of those who cannot afford a quality instrument (23% and 14% respectively). A possible explanation for this might be that teenagers have a busy timetable, while instruments can be rented or bought second-hand.
Проблема + решение	Undoubtedly, certain problems may arise with learning to play a musical instrument. One of them is that it requires regular practice, which is hard to combine with schoolwork. One of the possible solutions is to practise for 20 minutes every day rather than for hours once a week, so that progress becomes steady.
Вывод + мнение	To sum up, I am convinced that it is not essential for everyone to play a musical instrument, as people have different talents and interests. Nevertheless, every child should be given a chance to try, because music may turn out to be their true calling.

Что делает его сильным

Вступление	It is widely believed that... yet... + тема проекта и аудитория из задания + придаточное which.
Факты	3 факта с цифрами, опции встроены в предложения; доля словами (nearly a fifth), связка whereas.
Сравнение	23% и 14% — заметная разница, опции не из фактов; considerably higher than that of, respectively; комментарий A possible explanation for this might be that...
Проблема + решение	Проблема — именно learning to play a musical instrument (нехватка времени на практику); решение снимает её; so that...
Мнение	Ответ на вопрос плана «whether one should...» + две причины; Passive (should be given), may turn out.
Стиль (аспект 6)	Ни одной краткой формы, вопроса к читателю или разговорного слова.

Для сравнения: то же задание по базовому шаблону · 247 слов

Music is an important part of many people's lives. I am doing a project on why some Zetlanders refuse to attend music schools, and I have found some data on the subject – the results of a survey conducted among people in Zetland. In this essay I am going to analyse the data and give my opinion.

According to the table, 29% of the respondents refuse to attend music schools because they do not get fast results. About a fifth of those surveyed (19%) are not interested in music, and 15% say that music schools are too far from their homes.

It can be seen from the data that the number of the respondents who find music lessons time-consuming is higher than the number of those who have no money for a quality instrument (23% and 14% respectively). This is not surprising because many teenagers have a busy timetable, while an instrument can be rented or bought second-hand.

However, a problem can arise with learning to play a musical instrument. It requires daily practice, which is difficult to fit into a busy school timetable. A possible solution to this problem is to practise for 20 minutes every day instead of several hours once a week.

In conclusion, I would like to say that, in my opinion, it is not necessary for everyone to be able to play a musical instrument because people have different talents. However, I believe that every child should have a chance to try it.
